	<p>Addison is a leading supplier of HVAC cooling and dehumidification equipment for commercial and industrial applications with extensive experience in treating ventilation air. We specialize in 100% dedicated outdoor air systems and are able to deliver a wide range of options to satisfy ventilation for most building</p>	<ul style="list-style-type: none"> • 100% DOAS Unit • Energy Recovery • Packaged Rooftop Systems • Vertical Water Packages • Split Systems • Heat Pumps • Water to Water Units • Automated Logic Controls
	<p>ABB's offerings of products and services in North America help our customers succeed every day by increasing efficiency and reducing costs.</p>	<ul style="list-style-type: none"> • Variable Frequency Drives From 1 to 500 Horsepower • High & Low Voltage Motors
	<p>Armstrong's products are internationally recognized for design efficiency, long service life & operating economy. Their goal is to provide leadership to the industry, practical solutions to customer problems, and superior alternatives to conventional thinking.</p>	<ul style="list-style-type: none"> • Commercial Pumps & Specialties • Boosters, Vertical Turbines • Packaged Pumping Systems • Packaged Chiller Plants • Variable Speed Central Plant Ctrl's • Heat Exchangers • Air & Expansion Control
	<p>Baltimore Aircoil is a worldwide manufacturer and marketer of heat transfer and ice thermal storage products that conserve resources and respect the environment. Serving air conditioning, refrigeration, industrial, process, and power generation customers.</p>	<ul style="list-style-type: none"> • Cooling Towers • Closed Circuit Cooling Towers • Evaporative Condensers • Aircoil Evaporators • Ice Thermal Storage Systems
	<p>Bard is the industry's leading innovator of classroom and wall-mount air conditioning and heat pump technology. In fact, we've been manufacturing wall-mounts longer than any other company – starting in 1962. Behind all these innovations is our dedication to research and development, continually seeking ways to make our products more consumer and dealer-friendly.</p>	<ul style="list-style-type: none"> • Classroom Air to Air Heat Pumps • Geothermal & Water Source • Energy Recovery Ventilators • Hot Gas Reheat Dehumidification • CompleteStat Energy Monitor • Wall-Mount Heat Pumps, Air Conditioners & Gas/Electrics
	<p>We create and build innovations for a world that's safer and more secure... A world that's more energy efficient and where our quality of life is always improving... A world where people and organizations have the tools to be even more successful.</p>	<ul style="list-style-type: none"> • Building Automation Systems & Controls • Energy Management Systems • Open Protocol Systems • Lighting Controls • Building Air Quality Control
	<p>Lennox Commercial is a leading provider of high-efficiency packaged rooftop units, split systems, HVAC controls, furnaces and indoor air quality products for the light commercial industry. Our innovative products are designed to improve comfort and protect profits, and are backed by unsurpassed customer service.</p>	<ul style="list-style-type: none"> • Rooftop Units • Split Systems • Mini-Split Systems • Solar Ready • Commercial Controls
	<p>The modular water chiller was invented by Multistack. It started with a radically simple idea: water chillers made up of modules that could be brought into the equipment room one at a time, through standard doorways and down elevators, to form a fully integrated water chiller system. The modular chiller idea launched a revolution and transformed Multistack into a leader in the commercial water-chiller industry.</p>	<ul style="list-style-type: none"> • Water-Cooled • Air-Cooled • MagLev Water-Cooled • MagLev Air-Cooled • Heat Pump Chillers • Dedicated Heat Recovery • Centrifugal Modules • Air-Cooled Split
	<p>Phoenix Controls is the recognized leader in the design and manufacture of precision airflow control systems. Our systems ensure the environmental integrity of critical spaces, including laboratories, vivariums, pharmaceutical areas, biological containment facilities and health care facilities.</p>	<ul style="list-style-type: none"> • Laboratory Airflow Controls • Fume Hood Controls • Vivarium Airflow Controls • Health Care Airflow Controls • Venturi Air Valves
	<p>The strength of the Samsung brand is reflected in the Quality and innovation for which Samsung is globally acclaimed. Innovation in cooling and heating means dependability, advanced technology, exceptional performance, and higher efficiency which equals lower operating cost and improved cost of ownership. Do business with someone you know; a company that leads in innovation worldwide. Samsung-the most valuable brand in cooling & heating.</p>	<ul style="list-style-type: none"> • Variable Refrigerant Flow Split Systems • Heat Pump & Heat Recovery • Air Cooled • 208/230-3-60 & 460-3-60 • Ceiling Cassette Fan Coils • Ducted Fan Coils • High Wall Fan Coils • Broad Range of Controls

	<p>Aircuity is the leading manufacturer of integrated sensing and control solutions that cost-effectively reduce building energy and operating expenses while simultaneously improving indoor environmental quality.</p>	<ul style="list-style-type: none"> • Sensor Suite • Carbon Dioxide & Monoxide • Dewpoint, Temp., RH, Enthalpy • Airborne Particulates • Total VOC's
	<p>Air Monitor has over 40 years of experience in providing Airflow measurement and control solutions for the HVAC Industry. Air Monitor is dedicated to working with the Owners, Consulting Engineers, and/or Contractors to understand the site's airflow measurement and control needs. In turn we will assist in designing systems to best meet the critical needs of your HVAC airflow operation.</p>	<ul style="list-style-type: none"> • Fan Tracking • Airflow Measurement • Pressure Measurement
	<p>Alfa Laval is a leading global provider of specialized products and engineered solutions. Our equipment, systems and services are dedicated to helping customers to optimize the performance of their processes.</p>	<ul style="list-style-type: none"> • Plate & Frame Heat Exchangers • ARI Certification Available
 <p>ADVANCED COOLING TECHNOLOGIES The Thermal Management Experts www.1-ACT.com</p>	<p>Advanced Cooling Technologies, Inc. (ACT) is a premier thermal management solutions company. As examples, our thermal management products are deployed in numerous commercial satellites, military vehicles, medical devices, primary calibration equipment, and HVAC systems.</p>	<ul style="list-style-type: none"> • Heat Pipes • Cold Plates • HIK Plates • Loop Heat Pipes • Sealed Enclosure Coolers
 <p>amiad WATER SYSTEMS</p>	<p>For more than 40 years, Amiad has been developing a Comprehensive line of exceptionally efficient automatic self-cleaning filters and manual filters for use in industry, commercially, municipalities, and irrigation. Amiad's pledge to the filtration market is to continue to provide innovative and dependable products, quality service and reliable customer support. Our vision is to help our customers reach their potential with clean water.</p>	<ul style="list-style-type: none"> • PEP Filters: Automatic Backwash Media, Disc & Screen Filters • PEP Filters: Solids From Liquid Centrifugal Separators • AMIAD Filters: Self Cleaning Screen Filtration • ARKAL Filters: "Spin Klin" Disc Filtration
 <p>CCSolutions Composite Cooling Solutions, L.P.</p>	<p>Composite Cooling Solutions operates on a global scale as a design/engineer and construction contractor for custom built pultruded composite cooling towers. CCS utilizes and leverages the years of experience & expertise of its founders to focus solely on the field erected cooling tower market. These assets and focus have produced the future today... The Phoenix® Building System, an innovative combination of extreme flexible design and innovative materials.</p>	<ul style="list-style-type: none"> • Fiberglass Structure Field Erected • Concrete Structure Towers • Architectural Façade Towers • FM Approved Fiberglass towers • Tile Fill Material • Design, Engineering, & Construction Services
 <p>COMPU-AIRE INC. Specialized Environmental Air Conditioning Systems</p>	<p>Compu-Aire manufactures in excess of 100 different models of specialty air conditioners and heat pumps for data processing, telecommunication, education facilities, paper and pulp mills, and other critical environmental applications.</p>	<ul style="list-style-type: none"> • Ceiling Mounted Systems • Floor or Roof Mounted Systems • Wall Hung Systems • Air or Water Cooled • SchoolAire Classroom Units
 <p>CosaTron® Advanced Technology for Indoor Air Quality</p>	<p>CosaTron is a unique and patented system that does not generate ozone, ionization, or high frequency interference. CosaTron is not an air filter. It is applied in combination with an air filter to enhance the performance of the filter & often reduce the outdoor air requirements.</p>	<ul style="list-style-type: none"> • Custom for AHU Installation • Modular Plenum Units • Self-contained Fan Powered • ComputerPac Units • Residential EXCITOR System
 <p>DB DUNHAM-BUSH</p>	<p>Dunham-Bush creates innovative cooling solutions appropriate to the individual requirements of commercial buildings, schools, hospitals, airports, factories and residences. A pioneer and industry leader in rotary screw compressor technology for refrigeration systems and next generation air-cooled rotary screw flooded chillers, you can count on Dunham-Bush for unsurpassed performance and reliability. Dunham-Bush's emphasis on environmental sustainability has paved the way for energy efficient, clean energy products, such as, Geothermal Heat Pumps and fully integrated Ice Thermal Storage Systems.</p>	<ul style="list-style-type: none"> • Water Cooled Chillers • Air Cooled Chillers • Heat Pump Chillers Water-Water & Air-Water • Water Cooled Packaged Units • Air Cooled Packaged Units • Airside Products • Heating Terminal Products • Specialty Products
 <p>Dectron®</p>	<p>Dectron pioneered the indoor pool dehumidification market with the introduction of the Dry-O-Tron, a mechanical dehumidification system that uses a revolutionary energy saving feature that controls humidity levels while helping maintain comfortable temperature levels of the pool's water as well as the air inside the building.</p>	<ul style="list-style-type: none"> • Dehumidification Systems • Indoor Pool & Whirlpool • Dedicated Outdoor Air System • Residential & Light Commercial • Low Temperature Applications
 <p>envirosep A TILTECH™ COMPANY</p>	<p>EnviroSep has a handle on your pumping system project. From design consultation and problem solving, to manufacturing and factory test, we bring it all together to deliver exactly what your application requires. We deliver turnkey systems and solutions - products that work together to achieve the required functionality.</p>	<ul style="list-style-type: none"> • Packaged Pumping Systems • Steam & Condensate Systems • Domestic Booster Systems • Hot Water Systems • Heat Transfer • Modular Boiler Plants • Modular Chiller Plants
 <p>ENVIRO-TEC® ENGINEERING FOR EXCELLENCE</p>	<p>ENVIRO-TEC® has the most comprehensive line of air delivery and control products in the industry. From premium quality VAV products to highly specialized fan coil and air handling units, some of today's most prestigious buildings employ ENVIRO-TEC® equipment.</p>	<ul style="list-style-type: none"> • Single & Dual Duct VAV Boxes • Fan Powered Terminals • Fan Coil Units • Belt Drive Blower Coil Units • Air Handling Units • Analog, DDC & Pneumatic Ctrl's

	<p>Fläkt Woods various Air Diffusion System Products are top of the line. The new generation of iQ Star Chilled Beams offer virtually endless possibilities. Flexibility and energy efficiency are the characterizing features, both indispensable cornerstones for true Demand Controlled Ventilation. Known for its innovative products for energy recovery systems, air treatment and sound attenuating products. Fläkt Woods acquired SEMCO in 2007.</p>	<ul style="list-style-type: none"> • Fresh Air Ventilators • Energy Recovery Wheels • Energy Recovery Systems • Primary Ventilation Systems • Duct & Elbow Silencers • Custom Silencers
	<p>Friedrich air conditioners are hard-working and hard-wearing. Our commercial-grade products are the first choice for tough environments, from oil rigs to the Kennedy Space Center. Constructed from the highest-quality materials and components, these units are built to exacting standards — yet they are among the quietest and most energy-efficient available.</p>	<ul style="list-style-type: none"> • VRP • Verti-I-Pak • PTAC • Ductless Split System • FreshAire PTAC • VRP
	<p>Greensleeves specializes in providing affordable, high return on investment sustainable building technologies. Its intelligent thermal energy management technology reduces the capital and operating cost of geothermal and hybrid HVAC systems. This technology plans simultaneously, and over time, the energy demand & supply. It dynamically optimizes the use of multiple harvesting, storage and distribution systems. (Patents pending)</p>	<ul style="list-style-type: none"> • Chilled Beams • Active • Passive • Free-Hanging • Integrated
	<p>Harsco Industrial Patterson-Kelley, a trusted industry pioneer for over 125 years, manufactures and sells a full-line of condensing, non-condensing and hybrid hot water boiler systems, as well as semi-instantaneous and instantaneous water heaters. Harsco Industrial Patterson-Kelley offers a wide array of commercial boiler products including both outdoor boilers and gas fired boilers.</p>	<ul style="list-style-type: none"> • Condensing & Non-Condensing • Hybrid Boilers • Fabricated Systems • Dual Fuel Boilers • Instantaneous & Semi-Instantaneous Water Heaters • Outdoor Boilers
	<p>Hays Fluid Controls manufactures Automatic Flow Control Valves, which operate over a wide range of differential pressures. The Mesurflo® is the Gold Standard in the Commercial HVAC industry. Hays uses the Mesurflo® technology in Stainless Steel Hose Kits for water source heat pumps as well as Coil Piping Packages for fan coils, VAV boxes, Air Handlers and more.</p>	<ul style="list-style-type: none"> • Automatic Flow Control Valves • Water Source Heat Pump Hose Kits • Coil Piping Packages • Condensate Hose Kits • Manual Balancing Valves
	<p>Johnson provides solutions for large open areas from basic direct or indirect fired heating and cooling units to equipment engineered for facilities that require more specific indoor conditions such as humidification, de-humidification, corrosive and chemical duty environments, clean rooms and specialized filtration systems, food processing and wash down applications, and others.</p>	<ul style="list-style-type: none"> • Air Rotation Units – Heating, Cooling or Both • Make-up Air Heating & A/C • 80/20 Pressurization & Recirculation • Indirect Fired Make-up Air • Industrial Space Heaters
	<p>Kinetics Noise Control, a leader in the vibration and noise control industry since 1958. With state-of-the-art engineering, Kinetics provides the optimum solution to the client's sound and vibration problems. Kinetics also develops custom products for customer's individual needs.</p>	<ul style="list-style-type: none"> • HVAC Vibration Isolation • Seismic Engineering & Products • Architectural Noise Separation • Industrial Systems • Precision Isolation • Home Theatre
<p>Since 1918</p> 	<p>Lattner Boiler manufactures both fuel-fired and electric boilers for a variety of industrial applications including dry cleaning, health club steam room systems, food processing including steam jacketed kettles, medical sterilization equipment and much more. Headquartered in Cedar Rapids, Iowa and in business for almost 100 years, Lattner Boiler Manufacturing has a proven record of quality and innovation.</p>	<ul style="list-style-type: none"> • Fuel-Fired Vertical Tubeless Steam Boilers • Fuel-Fired Horizontal Firetube Steam & Hot Water Boilers • Electric Horizontal Steam Boilers • Electric Cabinet Style Steam and Hot Water Boilers • Steam Room Boilers
	<p>LynxSpring's technologies enable users to manage and operate their equipment smarter, safer, more efficiently, and at peak performance levels. Embracing open framework platforms, LynxSpring designs, manufactures and distributes JENEsys® brand Internet based automation infrastructure technology and device-to-enterprise integration solutions.</p>	<p>LynxSpring offers an extensive line of quality products that allow you to economically install a new or upgrade your existing HVAC system providing you the means to manage and control your building's assets.</p>
	<p>MarCraft® leads the industry in the design & manufacturing of Custom Air Handling Equipment and other custom HVAC related products. MarCraft® equipment is designed for customers with specialized needs, providing equipment for hospitals, schools, clean rooms, research facilities, colleges and universities, water treatment facilities, food production and wash down areas, just to name a few.</p>	<ul style="list-style-type: none"> • Custom Engineered AHU's • Special Construction Materials • Piping & Refrigeration • Unique Geometry or Sizes • Unlimited Capacities • High Static Capability • Sound Stringent • Heat Recovery

	<p>PURE Humidifier has been providing quality humidification products for industrial and commercial applications for 24 years. Our versatile, efficient and reliable Steam Injection, Steam Heat Exchanger, Electric and Gas Fired Humidifiers, backed by exceptional customer service, guarantees your satisfaction. Choose from our complete line of easy-to-install, low-maintenance humidifiers & accessories for optimal air quality & relative humidity control for your unique environment.</p>	<ul style="list-style-type: none"> • Electric Humidifiers • Steam Heat Exchanger Humidifiers • Gas to Steam Humidifiers • Direct Steam Injection • Insty-Pac Dispersion Panel • INTAC Control System
	<p>For over 50 years, Raypak has been the world's leading manufacturer of copper finned boilers and heaters. Raypak's design goals are and have always been high quality, reliability and energy efficiency. Adhering to these basics is the reason the reputation of the company is held in such high regard by design build consultants, specifying engineers, distributors, contractors and owners.</p>	<ul style="list-style-type: none"> • Fan Assisted & Atmospheric • Condensing Boilers • CML Space Heating Boilers • CML Hot Water Supply Boilers • Instantaneous Boilers • Dual Temp Boilers • Pool Heaters
	<p>Spirotherm, Inc. manufactures the industry leading high efficiency Spirovent® coalescing type air elimination products and its extended line of Spirotrap® dirt separators. Protecting the investment in high efficiency boilers, chillers, and other system components requires the fluid to be distributed efficiently. Eliminating air & dirt does away with many maintenance items that have been considered routine, saves energy, and improves overall system performance and heat transfer.</p>	<ul style="list-style-type: none"> • Spirovent Combination Air / Dirt Separators • Spirovent Air Eliminators • Spirovent Hydraulic Separators • Spirotrap Dirt Separators • Spirotop Air Release Valve • Customization of any unit
	<p>Sterling has been a major producer of Gas Fired & Hydronic Unit Heaters for over 40 years. High & Low Intensity Infrared, Rooftop Duct Furnaces, Evaporative Cooling Units, Packaged HVAC Rooftop and Indoor Make-Up Air Units, and a full line of Industrial Products enhance Sterling's complete line of HVAC equipment.</p>	<ul style="list-style-type: none"> • Gas Unit Heaters & Duct Furnaces • Make-up Air Units • Finned Tube Radiators • Cabinet Hydronic Unit Heaters • Steam & Hot Water Unit Heaters • Radiant Ceiling Heating • Convectors
	<p>Thirty years of unique design solutions for ventilation & exhaust at thousands of facilities. At Strobic Air, we meet your needs of tomorrow with innovative ideas--today!</p>	<ul style="list-style-type: none"> • Lab fume hood exhaust systems • Clean room recirculation systems • Vane axial & high temp. fans
	<p>VTS Group operates in five production plants throughout the world, which enables quick delivery of products on a global scale. The business model ensures repeatable, high quality products, regardless of the country to which they are delivered.</p>	<ul style="list-style-type: none"> • Ventus Air Handler • Wing Air Curtain • Volcano Air Heater • Pump Group
	<p>Warren Technology, Inc. has served the HVAC industry for over 50 years in the USA and several countries abroad. With emphasis on leading edge technology, our Heating and Air Distribution products are designed to improve the comfort and efficiency of air conditioning systems in commercial, residential, and industrial buildings.</p>	<ul style="list-style-type: none"> • Custom Built Electric Duct Heaters • Stock Line Electric Duct Heaters
	<p>WaterFurnace is a pioneer and industry leader in the development and manufacture of geothermal heating & cooling systems. "Smarter from the Ground Up"</p>	<ul style="list-style-type: none"> • Industry Leading Efficiency • Commercial Indoor & Rooftop • Console Heat Pumps • Water to Water Heat Pumps
	<p>WattMaster Controls Inc., product line includes energy management systems and complete building automation systems. They are very active in the design & production of OEM controls for many major HVAC manufacturers.</p>	<ul style="list-style-type: none"> • Zoning Systems & Controls • VAV Control Systems • WSHP Control Systems
	<p>YANMAR's Energy Systems division began operation in 1984, and today has installed more than 375,000 Combined Heat and Power (CHP or cogeneration) and Variable Refrigerant Flow (VRF) Natural Gas Heat Pump Systems worldwide.</p>	<ul style="list-style-type: none"> • VRF • CHP
	<p>XeteX is a specialty manufacturer of energy recovery and heat transfer systems. Our area of expertise is applying cost-effective air-to-air energy recovery technologies to a wide variety of applications.</p>	<ul style="list-style-type: none"> • Energy Recovery Wheels • Aluminum Flat Plate Exchangers • Primary Ventilation Systems • Heat Pipes • Custom Built Packages
