

NASHVILLE, TN

Manufacturer Partners

Provider of 100% OA Units, DOAS Systems, Ventilation Systems, Air Handling Units, Air Cooled and Water Cooled Condensers, Water Source Heat Pumps.

Leading manufacturer of integrated sensing and control solutions that cost-effectively reduce building energy and operation expenses.

Smart indoor air quality sensors help you optimize ventilation and building maintenance for energy savings and ensure a happy, healthy, and productive workplace for tenants, employees, and students.

Comprehensive line of exceptionally efficient automatic self-cleaning and manual filtration systems for use in industrial and commercial HVAC applications. Manufacturer of centrifugal separators, disc filters, sand filters, screen technologies, and bag filters.

Worldwide leading manufacturer of Cooling Towers, Closed Circuit Coolers, Evaporative Condensers, Adiabatic Coolers, and Thermal Ice Storage Systems.

Industry-leading innovator of vertical packaged heat pump unit ventilators and wall-mounted air conditioning units for schools and other markets.

The leading manufacturer of commercial OEM HVAC replacement and custom design/build booster coils, fan coils, condenser coils, and DX Coils.

Operates on a global scale as a design/engineer and construction contractor for custom-built pultruded composite cooling towers. Available as 2000 to 90,000+ tons of cooling. Large facility, district cooling, and industrial process applications.

Established in 2009, for the purpose of introducing Polypropylene Vent Systems to the North American market, Centrotherm Eco Systems is a member of the Ubbink Centrotherm Group (UCC).

Provider of specialty air conditioners and heat pumps for data processing, telecommunication, education facilities, and other critical environment applications.

Proven technology to improve indoor air quality, reduce indoor odors and reduce particulate. Available in standalone units as well as components for installation within your air handling system.

Pioneers of indoor pool dehumidifiers and dehumidification control.

The original inventor of the screw compressor, Dunham-Bush is a leading provider of applied HVAC equipment including water-cooled centrifugal chillers, air-cooled chillers, air handling units, self-contained water-cooled units, condensing units, and DOAS systems.

Manufacturer of the highest quality technology-based HVAC systems including lab systems, sound-sensitive AHU's, high static AHU's, positive closure damper systems, and bi-polar ionization systems.

Comprehensive providers of engineered and prefabricated hydronic systems for process, HVAC, and plumbing.

Premium quality VAV terminal units, fan coils, and air handling units.

Manufacturer of HEPA/ULPA Filters and Air Purification Systems & Sterionizer Bipolar Ionization Module.

Manufacture focused on providing equipment solutions for energy efficiency, energy recovery, low dewpoint, chilled beams, and data centers.

Makers of the world's best whole-house UV light and activated carbon air purifiers. Products that clean the air throughout your home or business because they are installed directly inside your central air system. Microbes and odors are eliminated as air cycles repeatedly through the system.

Manufacturer of high-efficiency hotel room HVAC equipment with modulating features for optimal temperature, humidity control, and comfort.

The full range supplier of pumps and pump solutions. As a renowned pump manufacturer, Grundfos delivers efficient, reliable, and sustainable solutions.

Manufacturer of automatic and manual hydronic flow control valves, hose kits, and devices. Precise flow devices for better system performance.

Saving energy the smart way. Honeywell variable frequency drives (VFDs) maximize energy savings by modulating the speed of fans and pumps in HVAC systems.

NASHVILLE, TN

Manufacturer Partners

Honeywell

Building management solution (BMS) that takes all the aspects of your building and occupant needs into consideration to maximize energy efficiency.

Lattner Boiler Manufacturing Co

Manufactures both fuel-fired and electric boilers for a variety of industrial applications.

Inventor of the modular water chiller which has expanded into air-cooled chillers, centrifugal chillers, prefabricated chiller plants, and many custom application-specific high-efficiency cooling offerings.

Quality evaporative chillers, evaporative cooling equipment, custom DX units, Coils, and specialty refrigeration equipment.

Veterans of the HVAC industry designing coils using solid engineering principles with industry practices.

Manufacturer of dilution exhaust fans, energy recovery plenums, and controls for laboratories or other critical airflow control facilities.

Quality evaporative chillers, evaporative cooling equipment, custom DX units, Coils, and specialty refrigeration equipment.

Heating products designed to improve the comfort and efficiency of HVAC units in commercial, residential, and industrial buildings.

Manufacturer of equipment solutions for large open spaces including Air Rotation Unit, Direct/Indirect Fired Make-up air units, Industrial grade semi-custom units for all applications.

Leading provider of high efficiency packaged rooftop units, split systems, VRF, Gas Heaters, HVAC controls, furnaces, and indoor air quality products.

We offer the widest range of products and solutions for extraction and filtration of dust and particles, welding fumes, exhaust fumes, oil mist, gases and combustible dust. Your industrial air filtration expert!

Provide simple, flexible, and sustainable controls that balance the comfort, efficiency, and greenhouse gas reductions of commercial buildings around the world.

Manufacturers of the industry-leading high-efficiency Spirovent coalescing type air elimination products and its extended line of Spirotrap dirt separators.

Provider of rooftop units, air handling units, air-cooled condensers, and DOAS units designed to make installation, start-up, and servicing easier and less costly.

United CoolAir's all-indoor equipment delivers air-cooled and water-cooled solutions without placing unsightly equipment outdoors or on a roof.

Pioneer in the development and manufacturing of geothermal heating and cooling systems, hybrid heat pump chillers, and Geothermal DOAS units.

Global leader providing optimum solutions for reducing sound and vibration inside buildings including mechanical systems, seismic restraints, engineering, floors, walls, and ceilings. Reduction of ambient sound from outdoor mounted mechanical equipment.

Provider of application-specific controllers for custom HVAC unit controls to provide unmatched temperature and humidity control of DOAS systems.

Manufactures a full line of condensing, non-condensing, and hybrid hot water boiler systems, as well as high-efficiency water heaters.

Raywall is an industry leader in providing smart choices for any application that requires American made equipment. So for your next comfort conditioning application, call Raywall.

Provider of customizable finned tube radiation and hydronic heating systems.

The industry's leading HVAC manufacturer for applications including; industrial sites, major medical facilities, pharmaceutical + more. Providing AHU, ECO Controls, Fan Array, and Modular Central Plants.

Global Manufacturer of quick-ship air handling equipment and energy recovery air handlers.

Manufacturer of Natural Gas Powered VRF Heat Pump Systems as well as Combined Heat and Power Equipment.

NASHVILLE, TN

Air Distribution Partners

CaptiveAire® is the nation's leading manufacturer of commercial kitchen ventilation systems.

Combustion Research Corporation, located in Rochester Hills, Michigan, has been in the Low Intensity infrared heating manufacturing business for over 50 years.

A leading manufacturer of air duct products for the HVAC industry. We manufacture a complete line of residential air duct products and offer a full range of rectangular, round, and spiral duct products for commercial construction.

Envira-North Systems Ltd. has recognized a worldwide need to reduce energy consumption by contributing to the effectiveness of heating, cooling and ventilation systems.

Committed to making products that support healthy and comfortable indoor environments.

Our products are precision engineered and manufactured to the highest standards to provide superior performance.

Heatfab® is the leading manufacturer of high-quality residential and commercial venting systems for Special Gas Vent applications, specified by OEMs for over 20 years. Time-tested installations throughout North America and globally

We continue our manufacturing tradition today in building customized heating components and thermal heating solutions.

Providing quality products such as •Branch Take-off Fittings, Square-to-Round Cans, Manual Dampers, Duct Access Doors and Wall Caps.

Agile manufacturing company that offers high quality HVAC and architectural sheet metal products while ensuring customers receive prompt and knowledgeable support.

Global leader providing optimum solutions for reducing sound and vibration inside buildings including mechanical systems, seismic restraints, engineering, floors, walls, and ceilings. Reduction of ambient sound from outdoor mounted mechanical equipment.

Superior craftsmanship, reliability and durable quality that you proudly put your name on. Air Curtains: Commercial, Industrial, Institutional and Food Service.

Berko and QMark employ both innovation and practicality in standard and custom-engineered heating and ventilation solutions for residential, commercial and industrial applications.

Originally known as Reliable Sheet Metal in the early 60's, offering products such as Aluminum GRD's, Aluminum Louvers, Aluminum PTAC Louvers and Aluminum Control Dampers.

DuraVent is a recognized technological leader in the venting industry. Consistently the first to market with new innovations in venting systems with the best in class capabilities.

Soler & Palau offers a range of ventilation products benefiting from over 60 years of experience within the industry.

Specializing in Quality. Offering: UL-Listed Life Safety Dampers, Louvers, Air Control Dampers, and roof Curbs.

Our mission has been to provide quality engineered and manufactured products that solve exhaust, ventilation and heating/cooling problems.
